

Peller Estates Winemaker's Challenge

Our Winemaster's Challenge offers groups a unique wine inspired team-building experience. Hosted by a wine consultant, guests will participate in an inter-active wine themed challenge with the winning team being awarded the title of 'Peller Estates Winemasters'.

Using the internationally acclaimed 'Wine Awakenings' aroma kit, teams will compete to accumulate points as they identify essences that are present in our wines. This challenge will help guests to develop their ability to detect familiar aromas found in wines in a relaxed environment.

The Blind Tasting challenge includes six wines and six wine descriptions. Participants will be given the challenge to correctly match wines and their descriptions with additional bonus points being awarded for correctly identifying grape varieties. Of course this will be conducted blind-folded, which will remove the sense of sight and increase the skill required to match the correct wines.

The Wine Trivia portion of the challenge will allow participants the chance to accumulate points when correctly answering a series of multiple choice questions which test the groups wine knowledge in a fun and educational format.

A reception of Peller Estates Ice Cuve?e and artisanal cheeses will be enjoyed during the final tally of all collected points. Challenge participants will take home a bottle of *Andrew Peller Signature Series* wine as a memory of this unique wine country experience.

In addition, the winning team will be recognized with a 'Peller Estates Winemaster' certificate, issued by our winemaker Lawrence Buhler.

\$50 per guest

This experience is approximately 2 hours in length.
